Welcome, necc2007. Your account has been created.

To use del.icio.us, you need to install two buttons into your browser. We highly recommend that all Firefox users install this simple del.icio.us extension:

[Install Extension Now »](#)

(Firefox 1.07 or newer required)

If you see this message at the top of the page, click “Edit Options,” “Allow,” “Close,” and click the install link again. 

After installing, please restart Firefox. You'll be automatically taken to [step 3](#).

Prefer not to install the extension? You can use the alternative buttons available on the [bookmarklet buttons](#) page.

Not using Firefox? View alternate instructions for: [Internet Explorer](#), [Safari](#), [Opera](#), or [other](#).

METHOD 2 - Bookmarklets

What are buttons and why do I need them?

Buttons (**bookmarklets**) are links you add to your browser's Bookmarks Toolbar. They are an easy way to post and view your bookmarks in del.icio.us.

What do they do?

The [post to del.icio.us](#) button allows you to post your current page to del.icio.us.

The [my del.icio.us](#) button allows you to quickly view your bookmarks.

How do I get them?

» Make sure the "Bookmarks Toolbar" is checked under View → Toolbars.

» Drag this link: [post to del.icio.us](#) up to your Bookmarks Toolbar.

» Drag this link: [my del.icio.us](#) up to your Bookmarks Toolbar.

If you cannot drag and drop the links, [click here](#) for further instructions.
